Daniel Nixon, Regional Director of Wellness, and Kelly Eben, Regional Director of Finance, round out Juniper Communities' Texas Team

April 13, 2021 (Bloomfield, NJ) – Juniper Communities is pleased to announce the final two members of its regional leadership team for Texas: Daniel Nixon as Regional Director of Wellness, and Kelly Eben as Regional Director of Finance. Earlier Juniper announced the addition of Vickie Stotler-Smith as Regional Director of Sales & Program Development and Casey Tiffany as Regional Director of Operations for Texas. Juniper Communities is currently expanding their operations into the Texas market.

Daniel Nixon is a Board Certified Geriatric Nurse who has spent most of his 30+ year career as a director of nursing for geriatrics. In his role as Regional Director of Wellness, Daniel will be overseeing all things clinical in nursing on the assisted living and skilled nursing side of Juniper's Texas communities. He will ensure resident/patient handling, implementation of Juniper's policies, nursing care, and Signature programs.

Originally from Philadelphia, PA, Daniel has lived in Texas for almost 30 years. He has always had a love for the elderly, knowing he too would be there one day, and finds listening to their life stories especially interesting. Caring for the elderly is a family affair as his wife Carol is a therapist in a long term acute care hospital. Daniel loves going to concerts and sporting events, and family vacations with children Ryan, Emily, and Nicole.

Kelly Eben, as Director of Finance, will support and oversee the business side of operations in Texas including Human Resources, Payroll, and Accounts Payable/Receivable. She has been working in long term care for 20 plus years, always on the business side. Since joining Juniper she has received her Texas Assisted Living Certification.

Born in Austin and raised in Junction, Kelly's family was part of the Immortal 32 from Gonzalez, TX that rode into San Antonio for the Battle of the Alamo. As a young girl, when her mother needed to travel, she would drop Kelly off at the local nursing home to help with the seniors while she was actually being watched herself. Kelly would brush the residents' hair, paint their fingernails, and talk to them. She also tagged along with the activities director and helped and joined in whenever possible.

After having her children, her first step back into the workforce was starting as a receptionist at a local Texas State Veterans Home. Here her career trajectory in senior living took off. Kelly and her husband reside in San Marcos, TX. Together they have four grown children and are expecting their first grandchild. They also have six dogs and enjoy traveling, hunting, and fishing.

About Juniper Communities

Juniper Communities, a leader in quality, value and innovation in long-term care, operates senior living communities in Colorado, New Jersey, Pennsylvania and Texas that emphasize residents' well-being, interaction and security. Our communities and approach to housing and care offers residents the opportunity to live a full life, regardless of age or health. Juniper's innovative Connect4Life program has been proven to improve residents' care by decreasing hospitalizations, re-hospitalizations and urgent care visits, while offering potential cost savings to public programs such as Medicare.
