Juniper Village at Williamstown Receives Deficiency Free Advanced Standing State Survey

Williamstown, NJ – It is with great pride that Juniper Village at Williamstown, a two-building campus serving those in need of assisted living and memory care, has received a Deficiency Free Advanced Standing Survey from the State. This means that each department, from Wellness, to Connections, to Dining, to Environmental Services, is providing superior care, fostering a vibrant lifestyle, and creating a safe space where wellbeing thrives.

“Advance Standing communities are held to a higher standard that far exceeds state requirements. When we learned that we had not only maintained Advance Standing status, but also were deficiency-free, it truly was an honor. This achievement is a reflection of our entire team, whose dedication and attention to detail ensure that we are exceeding the standards every day,” exclaimed Diane Velez, Executive Director of Juniper Village.

The Department of Health conducts on-site inspections of assisted living communities each year without prior notice over a three to four-day period. Inspection teams evaluate all aspects of resident care and facility procedures and practices. Compliance with more than 1,500 state and federal standards is assessed, focusing on the fitness and adequacy of the facility. The team also reviews residents’ rights, access to care, dietary services, housekeeping and staffing.

“I couldn’t be more proud of the leadership and team of Juniper Village at Williamstown,” expressed Linda Donato, Vice President of Operations for Juniper Communities. “They are one of only a small percentage of communities that have this distinction in the state of New Jersey. It truly takes a

village to achieve perfect results in care, dining, connections, and environment. This assures that our residents are receiving impeccable care and support in maintaining wellbeing of mind, body, and spirit.”

Juniper Village at Williamstown is located at 1640 South Black Horse Pike, Williamstown, NJ. For more information call (856) 740-4444; or visit www.junipercommunities.com.

About Juniper Communities, LLC

Juniper Communities, a leader in quality, value and innovation in long-term care, operates communities in New Jersey, Pennsylvania and Colorado that emphasize residents’ individualized care needs, interaction and security. Our portfolio is mixed and includes both owner-operated properties and properties managed for a select group of investment companies. Our approach to housing and care offers residents the opportunity to live a full life, regardless of age or health. Juniper’s innovative Connect4Life program has been proven to improve residents’ care by decreasing hospitalizations, re-hospitalizations and urgent care visits, while offering potential cost savings to public programs such as Medicare. To learn more about the many ways Juniper Communities innovates in support of our residents, please visit junipercommunities.com.
